

Bremer Commonwealth Marine Reserve – Bioregional Advisory Panel recommended zoning

This map was produced for the independent CMR Review. It is not government policy.

Zoning

- Marine National Park Zone (IUCN II)
- Special Purpose Zone (IUCN VI)

Note: Special Purpose Zones B and C have special conditions. Special Purpose Zone B allows scallop trawling and prohibits mining. Special Purpose Zone C prohibits mining. For more detail, refer to the 'Overview of the recommended zoning scheme for the South-west Commonwealth Marine Reserves Network'.

Maritime boundaries

- Limit of coastal waters

Coordinates are expressed in degrees and minutes. Straight lines of this reserve, other than meridians and parallels, are geodesic lines (shortest line between points), they are not lines of constant bearing (rhumb line or loxodrome).

Coordinates of geodesic lines (other than gazetted boundary coordinates) have been produced for indicative purposes only and are approximate. Coordinates of the final version may vary slightly from those presented here due to the application of more precise methods of data processing.
